INDEX TO VOLUME 14

A

Abbott, Osler A. Abnormal esophageal communications: their types, diagnosis, and therapy, 382
(with de Oliveira, H. Renault. Spontaneous pneumothoraces occurring in patients undergoing peroral endoscopy, 453
Adams, Arthur J. (with Fitzpatrick, Leo J.). Nerve block in treatment of thoracic injuries, 480
Adams, Ralph. Discussion of symposium on bronchial tumors, 119, 127
(with Hoover, Walter B.). Benign tumors of esophagus; report of three cases, 279
Adams, William E. (with Bloch, Robert G., Thornton, Thomas F., and Bryant, J. Edmond). Difficulties in differential diagnosis of bronchogenic carcinoma, 83
(with Thornton, T. F., Jr., Bryant, J. E., and Carlton, L. M., Jr.). Use of whole blood transfusion in resections of lung, 176
Adenoma, bronchial (Jackson, Konzelman, and Norris), 98
problem of so-called bronchial (Graham and Womack), 106
treated by pulmonary resection, bronchial (Chamberlain and Gordon), 144
Alexander, John. Discussion of symposium on bronchial tumors, 122
Discussion of symposium on tuberculosis, 47
American Association for Thoracic Surgery
list of members, 491
list of officers, 490
twenty-sixth annual meeting, 496
Aneurysm of subclavian artery in infant (Daniel), 487
Aorta and its surgical treatment, congenital coarctation of (Crafoord and Nylin), 347
Arterial blood loss, observations on pulmonary arterial pressure and peripheral venous pressure following (Eaton, Czebrinski, and Smith), 339
Ascorbic acid (vitamin C) in chest surgery, importance of (Zerbini), 309
Auxiliary surgical group, use and control of thoracic surgical teams of (Forsee), 425
Aycock, T. B. (with Brantigan, O. C., Hoffman, R., and Welch, H. J.). Relaxing thoracoplasty, 287

B

Bacteroides necrophorus, lung abscess caused by (Callahan, Beamer, and Valle), 231
Bailey, Charles P. Discussion of symposium on tuberculosis, 45
Beamer, Parker R. (with Callahan, Wm. P., Jr., and Valle, A. R.). Lung abscess caused by bacteroides necrophorus, 231
Bemen, Floyd M. (with Klassen, Karl P., and Patton, Richard). Neurofibroma of diaphragm, 407
Bigger, I. A. Discussion of symposium on bronchial tumors, 120
Blastomycosis; tumor of lung due to cryptococcus histolyticus (Dormer, Friedlander, Wiles, and Simson), 322
Bloch, Robert G. (with Adams, William E., Thornton, Thomas F., and Bryant, J. Edmond). Difficulties in differential diagnosis of bronchogenic carcinoma), 83
Blood transfusion, use of whole, in resections of lung (Thornton, Jr., Adams, Bryant, and Carlton, Jr.), 176
Bradshaw, H. H. (with O'Neill, James F.) Surgical treatment of lesions of lower esophagus and upper stomach, 187
Brantigan, O. C. (with Aycock, T. B., Hoffman, R., and Welch, H. J.), Relaxing thoracoplasty, 287
Brewer, Lyman A., III (with Burford, Thomas H., Samson, Paul C., and Burbank, Benjamin). Recovery from hemolytic staphylococcus aureus bacteremia attributed to penicillin therapy, 483
Bronchial adenoma (Jackson, Konzelmann, and Norris), 98
problem of so-called (Graham and Womack), 106
treated by pulmonary resection (Chamberlain and Gordon), 144
wall, proximal extension of carcinoma of lung in (Griess, Donald F., Mc Donald, John F., and Clagett, O. Theron), 362
Bronchogenic carcinoma, difficulties in differential diagnosis of (Bloch, Adams, Thornton, and Bryant), 83
Bronchus, cylindroma of (McDonald, Moersch, and Tinney), 445

Bryant, J. Edmond (with Bloch, Robert G., Adams, Wm. E.. and Thornton, Thomas F.). Difficulties in differential diagnosis of bronchogenic carcinoma, 83

(with Thornton, T. F., Jr., Adams, W. E., and Carlton, L. M., Jr.) Use of whole blood transfusion in resections of lung, 176

Burbank, Benjamin (with Burford, Thomas H.). Traumatic wet lung, 415

(with Burford, Thomas H., Samson, Paul C., and Brewer, Lyman A., III). Recovery from hemolytic staphylococcus aureus bacteremia attributed to penicillin therapy, 483

Burford, Thomas H. (with Burbank, Benjamin). Traumatic wet lung, 415

(with Samson, Paul C., Brewer, Lyman A., III, and Burbank, Benjamin). Recovery from hemolytic staphylococcus aureus bacteremia attributed to penicillin therapy, 483

C

Callahan, William P., Jr. (with Beamer, Parker R., and Valle, A. R.). Lung abscess caused by bacteroides necrophorus, 231

Carcinoma, bronchogenic, difficulties in differential diagnosis of (Bloch, Adams, Thornton, and Bryant), 83

of lung in bronchial wall, proximal extension of (Griess, McDonald, and Clagett), 362

Carlton, L. M., Jr., (with Thornton, T. F., Jr., Adams, W. E., and Bryant. J. E.). Use of whole blood transfusion in resections of lung, 176

Chamberlain, J. Maxwell. Discussion of symposium on tuberculosis, 54

Primary upper lobectomy versus modern selective thoracoplasty in treatment of tuberculosis, 32

(with Gordon, Joseph). Bronchial adenoma treated by pulmonary resection, 144

Clagett, O. Theron (with Griess, Donald F., and McDonald, John R.). Proximal extension of carcinoma of lung in bronchial wall, 362

(with McDonald, John R., and Harrington, Stuart W.), Hamartoma (often called chondroma) of lung, 128

(with Seybold, William D.). Presternal cyst, 217

Coarctation of aorta, congenital, and its surgical treatment (Crafoord and Nylin), 347

Conant, James S. Closed extrapleural pneumonolysis, 369

Crafoord, Clarence (with Nylin, G.). Congenital coarctation of aorta and its surgical treatment, 347

Crimm, Paul D. (with Martos, Veronica F.). Studies in oleothorax; I. Bacteriostatic action of oils on tubercle bacillus, 265

(with Westra, J. J.) Studies in oleothorax; II. Use of oils in disinfectant oleothorax and in the reexpansion of lung in tuberculous empyema (preliminary report), 270

Cryptococcus histolyticus (blastomycosis), tumor of lung due to (Dormer, Friedlander, Wiles, and Simson), 322

Cylindroma of bronchus (McDonald, Moersch, and Tinney), 445

Cyst, presternal (Seybold and Clagett), 217

Cystic lymphangioma of mediastinum (Sanes, Macmanus, and Scatchard), 253

Czebrinski, Edward W. (with Eaton, Robert M., and Smith, John R.). Observations on pulmonary arterial pressure and arterial blood loss, 339

D

D'Angianni, Vincente. Nontuberculous lung abscesses in children, 258

Daniel, Rollin A., Jr. Aneurysm of subclavian artery in infant, 487

Davidson, Louis R. Discussion of symposium on tuberculosis, 51

Diaphragm, a new guide in operation for esophageal hiatus hernia of (Truesdale), 160

neurofibroma of (Klassen, Patton, and Bemen), 407

Dolley, Frank S. Discussion of blood transfusions in lung resections, 185

Discussion of symposium on tuberculosis, 52

Pulmonary resection in treatment of tuberculosis, 1

Dormer, B. A. (with Friedlander, J., Wiles, F. J., and Simson, F. W.). Tumor of lung due to cryptococcus histolyticus (blastomycosis), 322

E

Eaton, Robert M. (with Czebrinski, Edward W., and Smith, John R.). Observations on pulmonary arterial pressure and peripheral venous pressure following arterial blood loss, 339

Endoscopy, spontaneous pneumothoraces occurring in patients undergoing peroral (Abbott and Renault), 453

Esophageal communications, abnormal; their types, diagnosis, and therapy, (Abbott), 382

hiatus hernia of diaphragm, new guide in operation for (Truesdale), 160

Esophagus and upper stomach, surgical treatment of lesions of lower (Bradshaw and O'Neill), 187
benign tumors of (Adams and Hoover), 279

F

Fitzpatrick, Leo J. (with Adams, Arthur J.). Nerve block in treatment of thoracic injuries, 480
Fluid in pleural space, significance of (Tinney and Olsen), 248
Forsee, James H. Use and control of thoracic surgical teams of auxiliary surgical group, 425
Freedlander, S. O. Discussion of symposium on tuberculosis, 52
Friedlander, J. (with Dormer, B. A., Wiles, F. J., and Simson, F. W.). Tumor of lung due to cryptococcus histolyticus (blastomycosis), 322

G

Gordon, Joseph. Discussion of symposium on bronchial tumors, 123
(with Chamberlain, J. Maxwell). Bronchial adenoma treated by pulmonary resection, 144
Graham, Evarts A. Discussion of symposium on bronchial tumors, 126
(with Womack, Nathan A.). Problem of so-called bronchial adenoma, 106
Griess, Donald F. (with McDonald, John R., and Clagett, O. Theron). Proximal extension of carcinoma of lung in bronchial wall, 362

H

Hamartoma (often called chondroma) of lung (McDonald, Harrington, and Clagett), 128
Harrington, Stuart W. (with McDonald, John R., and Clagett, O. Theron). Hamartoma (often called chondroma) of lung, 128
Hart, Deryl. Discussion of blood transfusion in lung resections, 185
Discussion of symposium on bronchial tumors, 122
Discussion of symposium on tuberculosis, 50
Head, Jerome R. Discussion of studies in oleothorax, 279
Discussion of symposium on bronchial tumors, 121
Hemolytic staphylococcus aureus bacteremia attributed to penicillin therapy, recovery from (Burford, Samson, Brewer, III, and Burbank), 483
Hemothorax, experimental (Melick and Spooner), 461
Hoffman, R. (with Brantigan, O. C., Aycock, T. B., and Welch, H. J.). Relaxing thoracoplasty, 287
Holinger, Paul H. Discussion of symposium on bronchial tumors, 126
Hoover, Walter B. (with Adams, Ralph). Benign tumors of esophagus; report of three cases, 279

I

Intrapleural cauterization, readhesion after (Maxwell), 194

J

Jackson, Chevalier L. Discussion of symposium on bronchial tumors, 125
(with Konzelmann, Frank W., and Norris, Charles M.). Bronchial adenoma, 98
Janes, Robert M. Discussion of symposium on tuberculosis, 52
Total and partial pneumonectomy in treatment of pulmonary tuberculosis, 3
Jones, John C. Discussion of symposium on tuberculosis, 47

K

Klassen, Karl P. Self-retaining scapula retractor for thoracoplasty, 414
(with Patton, Richard, and Bemen, Floyd M.). Neurofibroma of diaphragm, 407
Klopstock, Robert (with Maier, Herbert C.). Lobectomy for pulmonary tuberculosis, 20
Konzelmann, Frank W. (with Jackson, Chevalier, and Norris, Charles M.). Bronchial adenoma, 98

L

Lam, Conrad R. Large anomalous vein ("left vena cava") encountered in operation for ligation of patent ductus arteriosus, 393
Lobectomy for pulmonary tuberculosis (Maier and Klopstock), 20
primary upper, versus modern selective thoracoplasty in treatment of tuberculosis (Chamberlain), 32
Lung abscess caused by bacteroides necrophorus (Callahan, Beamer, and Valle), 231
abscesses, nontuberculous, in children, (D'Ingianni), 258
traumatic wet (Burford and Burbank), 415
use of whole blood transfusion in resections of (Thornton, Jr., Adams, Bryant, and Carlton, Jr.), 176

M

Macmanus, Joseph E. (with Sanes, S. and Scatchard, G. Newton). Cystic lymphangioma of mediastinum, 253
Maier, Herbert C. Discussion of symposium on bronchial tumors, 120
Discussion of symposium on tuberculosis, 53
(with Klopstock, Robert). Lobectomy for pulmonary tuberculosis, 20

Martos, Veronica F. (with Crimm, Paul D.). Studies in oleothorax; I. Bacteriostatic action of oils on tubercle bacillus, 265

Maxwell, R. J. C. Readhesion after intrapleural cauterization, 194

McDonald, John R. (with Griess, Donald F., and Clagett, O. Theron). Proximal extension of carcinoma of lung in bronchial wall, 362

(with Harrington, Stuart W., and Clagett, O. Theron). Hamartoma (often called chondroma) of lung, 128

(with Moersch, H. J., and Tinney, William S.). Cylindroma of bronchus, 445

Mediastinal cyst of gastric origin (Steele and Schmitz), 403

Mediastinitis, syphilitic, occlusion of superior vena cava due to; collateral circulation after nineteen years (Zeman), 330

Mediastinum, cystic lymphangioma of (Sanes, Macmanus, and Scatchard), 253

Melick, Dermont W. (with Spooner, Maryloo). Experimental hemothorax, 461

Moersch, H. J. (with McDonald, John R., and Tinney, William S.). Cylindroma of bronchus, 445

N

Nerve block in treatment of thoracic injuries (Fitzpatrick and Adams), 480

Neurofibroma of diaphragm (Klassen, Patton, and Bemen), 407

Nontuberculous lung abscess in children (D'Ingianni), 258

Norris, Charles M. (with Jackson, Chevalier L., and Konzelmann, Frank W.). Bronchial adenoma, 98

Nylin, G. (with Crafoord, Clarence). Congenital coarctation of aorta and its surgical treatment, 347

O

O'Brien, E. J. Discussion of symposium on tuberculosis, 46

Oleothorax, studies in; I. Bacteriostatic action of oils on tubercle bacillus (Crimm and Martos), 265

II. Use of oils in disinfectant oleothorax and in re-expansion of lung in tuberculous empyema (Crimm and Westra), 270

de Oliveira, H. Renault (with Abbott, Osler A.). Spontaneous pneumothoraces occurring in patients undergoing peroral endoscopy, 453

Olsen, Arthur M. (with Tinney, William S.). Significance of fluid in pleural space, 248

O'Neill, James F. (with Bradshaw, H. H.). Surgical treatment of lesions of lower esophagus and upper stomach, 187

Orth, O. S. (with Wilhelm, Rosaline L., and Waters, Ralph M.). Question of pulmonary damage with artificial respiration, 220

Overholt, Richard H. (with Wilson, Norman J.). Pulmonary resection in treatment of tuberculosis, 55

P

Patent ductus arteriosus, large anomalous vein ("left vena cava") encountered in operation for ligation of (Lam), 393

Patton, Richard (with Klassen, Karl P., and Bemen, Floyd M.). Neurofibroma of diaphragm, 407

Penicillin in pulmonary resection (Valle and White), 437

therapy, recovery from hemolytic staphylococcus aureus bacteremia attributed to (Burford, Samson, Brewer, III, and Burbank), 483

Peripheral venous pressure and pulmonary arterial pressure following arterial blood loss, observations on (Eaton, Czebrinski, and Smith), 339

Pleural space, significance of fluid in (Tinney and Olsen), 248

Pneumonectomy, total and partial, in treatment of pulmonary tuberculosis (Janes), 3

Pneumonolysis, closed extrapleural (Conant), 369

Pneumothoraces, spontaneous, occurring in patients undergoing peroral endoscopy (Abbott and Renault), 453

Prioleau, William H. Full-thickness flap closure of large thoracotomy due to chemical destruction of chest wall, 433

Pulmonary arterial pressure and peripheral venous pressure following arterial blood loss, observations on (Eaton, Czebrinski, and Smith), 339

damage with artificial respiration, question of (Orth, Wilhelm, and Waters), 220

resection, bronchial adenoma treated by (Chamberlain and Gordon), 144

in treatment of tuberculosis (Dolley), 1

penicillin in (Valle and White), 437

tuberculosis, bilateral, drainage of cavities in (Randolph), 395

R

Randolph, Victor Strong. Drainage of cavities in bilateral pulmonary tuberculosis, 395

Respiration, artificial, question of pulmonary damage with (Orth, Wilhelm, and Waters), 220
Retractor, self-retaining scapula, for thoracoplasty (Klassen), 414
Rigler, Leo G. Discussion of symposium on bronchial tumors, 121

S

Samson, Paul C. (with Burford, Thomas H., Brewer, Lyman A., III, and Burbank, Benjamin). Recovery from hemolytic staphylococcus aureus bacteremia attributed to penicillin therapy, 483
Sanes, S. (with Macmanus, Joseph E., and Scatchard, G. Newton). Cystic lymphangioma of mediastinum, 253
Scatchard, G. Newton (with Sanes, S., and Macmanus, Joseph E.). Cystic lymphangioma of mediastinum, 253
Schmitz, John (with Steele, John D.). Mediastinal cyst of gastric origin, 403
Seybold, William D. (with Clagett, O. Theron). Presternal cyst, 217
Simson, F. W. (with Dormer, B. A., Friedlander, J., and Wiles, F. J.). Tumor of lung due to cryptococcus histolyticus (blastomycosis), 322
Singer, J. J. Discussion of symposium on bronchial tumors, 120
Skinner, Edward F. A thoracoplasty binder, 171
Smith, John R. (with Eaton, Robert M., and Czebrinski, Edward W.). Observations on pulmonary arterial pressure and arterial blood loss, 339
Spooner, Maryloo (with Melick, Dermont W.). Experimental hemothorax, 461
Steele, John D. (with Schmitz, John). Mediastinal cyst of gastric origin, 403
Stomach, upper, and lower esophagus, surgical treatment of lesions of (Bradshaw and O'Neill), 187
Strieder, John W. Discussion of symposium on tuberculosis, 49

T

Thoracic injuries, nerve block in treatment of (Fitzpatrick and Adams), 480
surgical teams of auxiliary surgical group, use and control of (Forsee), 425
Thoracoplasty binder (Skinner), 171
modern selective, versus primary upper lobectomy in treatment of tuberculosis (Chamberlain), 32
relaxing (Brantigan, Aycock, Hoffman, and Welch), 287
self-retaining scapula retractor for (Klassen), 414
Thoracotomy, large, full-thickness flap closure of, due to chemical destruction of chest wall (Prioleau), 433
Thornton, Thomas F., Jr. (with Adams, W. E., Bryant, J. E., and Carlton, L. M., Jr.). Use of whole blood transfusion in resections of lung, 176
(with Bloch, Robert G., Adams, William E., and Bryant, J. Edmond). Difficulties in differential diagnosis of bronchogenic carcinoma, 83
Tinney, William S. (with Olsen, Arthur M.). Significance of fluid in pleural space, 248
(with McDonald, John R., and Moersch, H. J.). Cylindroma of bronchus, 445
Traumatic wet lung (Burford and Burbank), 415
Truesdale, Philemon E. New guide in operation for esophageal hiatus hernia of diaphragm, 160
Tubercle bacillus, bacteriostatic action of oils on (Crimm and Martos), 265
Tuberculosis, bilateral pulmonary, drainage of cavities in (Randolph), 395
pulmonary, lobectomy for (Maier and Klopstock), 20
resection in treatment of (Dolley), 1
(Overholt and Wilson), 55
total and partial pneumonectomy in treatment of (Janes), 3
treatment of, primary upper lobectomy versus modern selective thoracoplasty in (Chamberlain), 32
Tuberculous empyema, use of oils in disinfectant oleothorax and in reexpansion of lung in (Crimm and Westra), 270
Tumors, benign, of esophagus (Adams and Hoover), 279
of lung due to cryptococcus histolyticus (blastomycosis) (Dormer, Friedlander, Wiles, and Simson), 322
Tyson, M. Dawson. Discussion of symposium on bronchial tumors, 124

U

Urquhart, R. G. Discussion of symposium on tuberculosis, 51

V

Valle, A. R. (with Callahan, William P., Jr., and Beamer, Parker R.). Lung abscess caused by bacteroides necrophorus, 231
(with White, M. Lawrence, Jr.). Penicillin in pulmonary resection, 437

W

Waterman, David H. Discussion of blood transfusion in lung resections, 186
Waters, Ralph M. (with Orth, O. S., and Wilhelm, Rosaline L.). Question of pulmonary damage with artificial respiration, 220
Welch, H. J. (with Brantigan, O. C., Aycock, T. B., and Hoffman, R.). Relaxing thoracoplasty, 287
Westra, J. J. (with Crimm, Paul D.). Studies in oleothorax; II. Use of oils in disinfectant oleothorax and in re-expansion of lung in tuberculous empyema (preliminary report), 270
White, M. Lawrence, Jr. (with Valle, A. R.). Penicillin in pulmonary resection, 437
Wiles, F. J. (with Dormer, B. A., Friedlander, J., and Simson, F. W.). Tumor of lung due to cryptococcus histolyticus (blastomycosis), 322
Wilhelm, Rosaline L. (with Orth, O. S., and Waters, Ralph M.). Question of pulmonary damage with artificial respiration, 220
Wilson, Norman J. Discussion of symposium on tuberculosis, 48
(with Overholt, Richard H.). Pulmonary resection in treatment of tuberculosis, 55
Womack, Nathan A. (with Graham, Evarts A.). Problem of so-called bronchial adenoma, 106

Z

Zeman, Frederick D. Occlusion of superior vena cava due to syphilitic mediastinitis, collateral circulation after nineteen years, 330
Zerbini, E. de Jesus. Importance of ascorbic acid (vitamin C) in chest surgery, 309
